Microsoft\Windows NT\CurrentVersion.ProductName: Windows Vista (TM) Home Premium

Microsoft\Windows NT\CurrentVersion.RegisteredOrganization: (value not set)

Microsoft\Windows NT\CurrentVersion.RegisteredOwner: Joe

Microsoft\Windows NT\CurrentVersion.CSDVersion: Service Pack 1

**Associating suspect CP files from thumb drives to Toshiba laptop**

The Toshiba laptop computer (line item 001 from the JENKINS seizure) had Windows Vista Home Premium installed on 7/31/08; as part of the operating system package, Windows Media Player (WMP) was installed at the same time.

WMP includes a database that lists all of the music, videos and pictures contained on the computer hard drive; on the Toshiba, this database is located in the following path:

Users\Joe\AppData\Local\Microsoft\MediaPlayer\CurrentDatabase\_360.wmdb

This database contains links to the digital media files contained on the computer, rather than the actual digital media files. Even after the files are deleted, the record of their existence on the hard drive (i.e., their file name and the path where they were stored) can remain in the database file.

The 4GB thumb drive (line item 004 from the JENKINS seizure) contains 10 suspect child pornography graphic files whose MD5 hash values match graphic files contained on the Toshiba laptop; 7 of these files were created on the thumb drive after 7/31/08 (the date when WMP was installed on the Toshiba). The file names of these graphic files on the thumb drive are as follows:

- 10.jpg
- 1241293646588.jpg
- 11.jpg
- 1241404640714.jpg
- 1239582374432.jpg
- 1239736202210.jpg
- 1238097185831.jpg

The above file names (as they appeared on line item 004, the 4GB thumb drive) were queried in the WMP database file; evidence was found that each of these file names were at one time located in the path C:\Users\Joe\Pictures. This would conclusively establish that graphic files with these names were at one time contained on the Toshiba computer. 3 of these files (10.jpg, 11.jpg and 1239736202210.jpg) are MD5 hash matches to images of known victims from the National Center for Missing and Exploited Children (NCMEC).

## CASE CHRONOLOGY &amp; REVIEW FORM

4200-01 (3), P&amp;PM (Special Agent Handbook)

DATE	TIME EXPENDED	DESCRIPTION OF ACTIVITY
7/7/11		Received evidence (L.I. 001 → 107) from SA Wilbur re: JENKINS, Joseph Transported EVD to ICE Buffalo Lab. Unsealed EVD bag containing L.I. 002 → 005 (3 USB thumb drives) + began imaging. L.I. 003.
		Placed remaining EVD in Evidence Room.
7/8/11		L.I. 003 imaged + verified. Began imaging L.I. 004. L.I. 004 imaged + verified. Began imaging L.I. 005. L.I. 005 imaged + verified. Sealed 2, 4 + 5 - placed in EVD. Removed L.I. 001 from EVD. Photographed; removed HDD + began by verifying w/ FTK Imager. Began processing L.I. 003 in FTK.
7/9/11		L.I. 003 fully processed in FTK; began processing L.I. 004. L.I. 001 verified; began imaging.
7/11/11		L.I. 001 fully imaged - hashes match verification hashes. Began processing L.I. 005 in FTK. Retrieved HDD to L.I. 001, placed in EVD room. L.I. 005 fully processed - FTK Case "JENKINS USB Thumbdrives" contains L.I. 001, 004 + 005. Began analysis. Removed L.I. 002 (Camera Laptop) from EVD, verified HDD, imaged HDD, recharged + returned to EVD. Removed L.I. 007 (Cell phone) from EVD. Charged battery, attempted extraction of Cellphone - unsuccessful. Returned to EVD.

Customs Form 9B (101086)

## Toshiba Satellite P300 laptop

- Computer name - "JOE-PC"
- user profiles - "Joe" and "Administrator"
- Both thumb drives were attached to the laptop via USB port
- Windows operating system registered to "Joe" <sup>shows serial #s in registry</sup>
- Computer has Ethernet <sup>connection</sup> & Wireless net. card w/ associated IP addresses indicating connected to internet
- Has 3 email accounts through MS Outlook (roadrunner)
- 5 CP PC found in System Volume folder (Hidden - cached when system restored)
- Numerous ~~files~~ <sup>files</sup> of CP in each thumb cache

## mpag Presario 2100 laptop

- Registered to "JOE"
- Registry shows both thumb drives connected to computer
- 1 CP movie in deleted space

## NY Technologies 4GB thumb drive

- Loaded w/ CP from June 2007 - May 2009
- info indicating used @ websites "Lolita House", Letitbit.net

## NY Attaché 8 GB Thumb drive

- Same images of CP from Toshiba + other thumb
- Lots of CP movies - <sup>1 of which</sup> downloaded from letitbit.net website
- From August 08 - May 2009

CP images have identical names

Subject: Price Adjustment Effective February 2, 2009  
From: "Johanna Ball" <JBall@generac.com>  
Cc: "Ryan Jeske"  
<RJeske@generac.com>, <kylekauppila@gmail.com>, "Joanne Wenzel" <JWenzel@generac.com>

Prices on Generac generators will be adjusted effective February 2, 2009, due to the product enhancements which allow us to meet new, more stringent EPA Guidelines. Updated price lists have been sent out to all dealers and information is also available on the Dealer Connection. Take advantage of current price levels by placing your orders by February 1, 2009 prior to the price adjustment. Please direct questions regarding product pricing and availability to your inside sales representative. Thank you,

Johanna Ball

Guardian Dealer Channel Marketing Manager

BAIL EM OUT!

Back in 1990, the Government seized the Mustang Ranch brothel in Nevada for tax evasion and, as required by law, tried to run it. They failed and it closed. Now we are trusting the economy of our country and our banking system to the same nit-wits who couldn't make money running a whore house and selling whiskey.

Dave,

I am researching the phase converter. I think you need a Digital Phase Converter that is safer for electronics, for the lasers anyways. The water chiller would be OK for a rotary converter, as long as it does not have electronic controls. The voltage stabilizer is not listed as completely safe for electronics. Is there anyway you can check with the lazer company to see what they recommend? Rotary phase converters in my past experience put out really rough power, which is ok for motors but not PLC's.

My preliminary calculations indicate that you would need a 200 amp single phase service to feed the three phase equipment, assuming you would require running all of it at the same time, which would not leave a lot of power left over for the house.

I have one more busy week ahead, then I will have more time to research.

Joe
